First Announcement

CME/CNE Points pending approval

The highly successful 1st APSIC training Course was conducted in Singapore 2002. The aim of the 10 days training course is to equip participants with the comprehensive working skills necessary for the practice of Infection Control and Epidemiology.

An outstanding teaching faculty of infection control experts and experienced practitioners (both from local and overseas) chosen for their topical expertise and teaching experience will conduct this course. The topics covered will be highly relevant and up-to-date.
